Dear Ms. Rusconi, 9/9/95

The Vanity Fair story on Stone's Nixon movie reminds me that I can give him what without reasonable question was on those 18 1/2 minutes of erased tape.

And on Nixon and Castro in 1960, I have a published statement by one of the Watergaters, Hunt, that Nixon was the White House "action officer" on the Bay of Pigs at least.

I also have CIA records on that mafia plot that was of the Eisenhower administration.

He is welcome to these things, no quid pro quo.

And if it is too late for the movie, they can be used to promote it.

Sincerely,

Harold Weisberg
